COVID-19 Testing

- Be treated or prescribed medication for other respiratory conditions if needed and if this option is available at your assessment centre.
- Move through the testing process faster.

Further instruction will be provided by the clinician at the assessment centre based on individual assessment. Be prepared for increased wait times at the assessment centres.

Ontario Extends Emergency Orders

The [Government of Ontario](#) has extended all emergency orders currently in force under s.7.0.2 (4) of the Emergency Management and Civil Protection Act until June 30, 2020. Staff redeployment rules remain in place for long-term care homes and congregate settings like

retirement homes and women's shelters. The government will continue to review all orders on an ongoing, case-by-case basis to determine when and if they can safely be adjusted or lifted, as part of the province's framework to safely reopen the province. A full list of the emergency orders and related amendments that have been extended can be found [here](#).

Workplace PPE Suppliers

The Government of Ontario has a dedicated [PPE supplier directory](#) for workplaces. The directory provides a list of companies that sell personal protective equipment (PPE) and other supplies.

- On June 17, [Agriculture and Agri-Food Canada](#) announced that the governments of Canada and Ontario are investing up to \$10 million in emergency assistance for beef and hog farmers. - On June 17, [Parks Canada](#) announced that starting June 22, 2020, some camping services will be available at select national parks and national historic sites. - On June 16, the [Prime Minister, Justin Trudeau](#) announced that the government is extending the Canada Emergency Response Benefit (CERB) by eight weeks, to ensure Canadians have the help they need as they transition back to work.
