

Health Alert

Contaminated Substances

March 13, 2019

There have been two suspected overdoses causing death since March 7. There is evidence that Xanax tablets laced with Fentanyl contributed to the deaths.

Reduce your risk

- Carry naloxone
- Never use alone
- Start low and go slow

Get a naloxone kit

People who use drugs or their friends or family members can get a naloxone kit from:

- Wellington-Dufferin-Guelph Public Health
180 Broadway, Orangeville
Monday to Friday, 8:30 a.m.-noon or 1-4:30 p.m.
- Many pharmacies have naloxone:
